1 The purpose and audience of the document

The purpose of this document is to provide a template for the LSS suppliers feedback on special requirements or documentation regarding the LSS providers LSS for NemID solution.

The document addresses the solution architects at the LSS supplier organisation, who are responsible for the documentation and support of their LSS product.

Summary of all documents in the NemID LSS package:

Implementation documentation

- Technical specification for LSS
- Implementation guide for LSS

Test documentation

- Guidelines on the use of LSS for NemID test tools
- Test procedures for LSS

Solution documentation

- Requirements feedback form for LSS

2 How to use this document

This document serves as a template for LSS suppliers when publishing new support or substantial changes to the former LSS for NemID solution that require solution specific change of the general SP documentation.

Feedback can be provided to both documents for service providers and the document "Understøttelse af LSS til NemID I organisationen" for LSS organisations, responsible for implementing the specific solution.

3 Requirement feedback

The following feedback table is used to indicate whether feedback is provided to the individual documents. Feedback details should be provided in section 4.
